

## STYL AIR

## Condensate Drains

StylAir offers a wide range of auto drains and traps to eliminate condensate from compressors, aftercoolers, filters, receivers, dryers, drip legs, etc.....

### StylAir Model OA111 Intelligent Drain

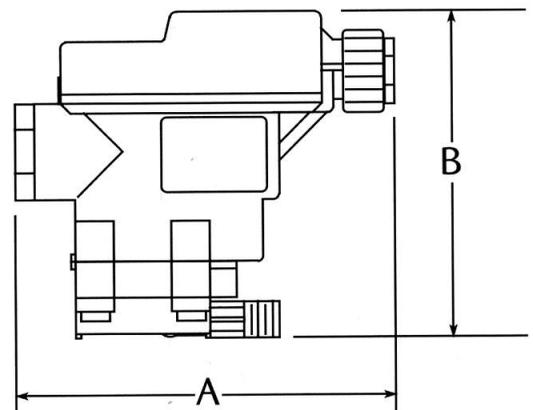

StylAir's line of "no-air-loss" electronic demand drains eliminate condensate without loss of valuable compressed air. On demand design discharges only when condensate collects in the housing sump - automatically adjusts to high or low demands.

- Simple Installation** - no adjustments required
- Reliable** - more tolerant to heavily contaminated systems
- Easy to Use** - non-wearing capacitive level sensor
  - LED indicator shows drain status
  - Manual Override
  - NEMA 4

These drains are a **MUST** for oil/water separators to prevent agitation which disrupts oil separation.

These drains are excellent for use with our **Condensate Purifiers**.

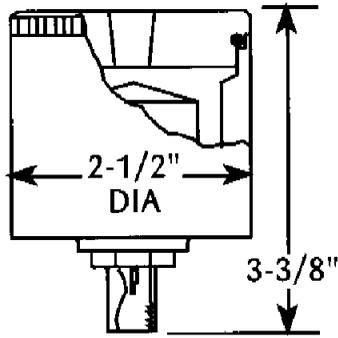

Model	Conn. Size	Nominal Capacity (GPH)	Typical Applications (SCFM)			Approximate Dimensions	
			Compressor/ Aftercooler	Refrigerated Dryer	Coalescing Prefilter	A	B
OA111-1	1/2" NPT	0.6	70	250	750	5.5	4.5
OA111-2	1/2" NPT	1	125	450	1,500	7	4.5
OA111-3	1/2" NPT	2.6	340	1,250	3,000	6	5.5
OA111-4	1/2" NPT	10	1,350	5,000	10,000	8.5	6.5
OA111-5	3/4" NPT	31	4,000	14,500	30,000	10	7
OA111-6	1" NPT	150	19,000	71,000	-	11	11

Max. Pressure: 230 PSIG      Max. Temp: 140°F

## StylAir Model OA109-1 Standard External Float Drain

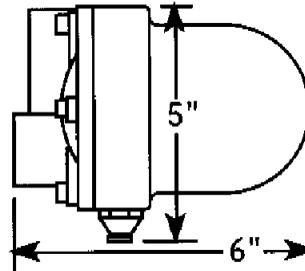

Our least expensive drain is ideal for draining condensate from smaller filters and drip-legs.

15-250 PSIG Rating  
1/4" NPT Inlet  
Manual Override

## StylAir Model OA109-2 Heavy Duty External Float Drain

This rugged mechanical float drain is suitable for larger filters and dryers. It's also the best choice when power is not available.

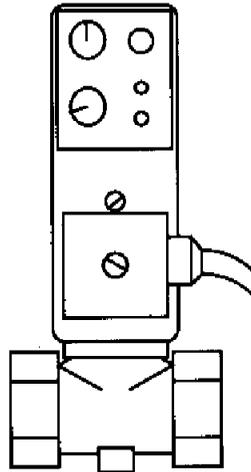

300 PSIG Rating  
1/2" NPT Inlet  
Includes Vent Adapter  
Manual Override

## StylAir Model OA110-1 Standard Electronic Timer Drain Valve

Our less expensive timed drain is ideal for draining condensate from smaller filters and dryers.

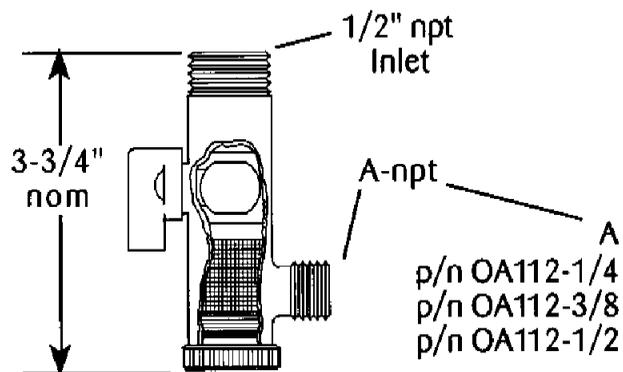

175 PSIG Rating  
1/4" NPT Inlet (other sizes available)  
Manual Override  
NEMA 4  
Supplied with 6-ft power cord

## StylAir Model OA110-2 Heavy Duty Electronic Timer Drain Valve

Heavy duty version of our timed drain valve with straight through full diameter flow path. Self-cleaning valve seat action makes this valve extremely dependable under adverse conditions - will work even with higher concentrations of sludge and scale in the condensate.

1/4" NPT

## StylAir Model OA112 Combo Strainer with Isolation Valve

Our strainer with integral shut-off valve protects all types of drains and traps and allows for easy clean-out.

No Tools Required for Maintenance  
Solid Brass Construction  
Stainless Steel Screen

**Note:** StylAir produces drains and traps for high pressure and hazardous locations. Consult the factory for your application.
